EXPERIENCE

2 YEARS AND 7 MONTHS
SOFYRUS TECHNOLOGIES | PART-TIME |JUNIOR SOFTWARE DEVELOPER
FEBRUARY 2020 – SEPTEMBER 2022 | Aligarh UP, India

EZYFORMS | Electron JS, RPA, Robot Framework
- Automate the filling of web forms and pdf forms from the data source (excel file).
- My role was to map the path of web form fields from the data source. Automate the filling of PDF forms and generate the filled PDF using the PDF-LIB library.

ROBONITO | Electron JS, RPA, Robot Framework
https://robonito.com
- Robonito is a complete no-code platform which allows testing with clicks and drags.
- My role was to take the data from the data source and change the data into the required format for the API Test. So, from this, we can test multiple requests at a time.

ROBONITO CHROME EXTENSION | JavaScript, Nest JS
- Robonito is used to Automate the filling of web forms.
- Built a chrome extension independently, which automated the process of filling and capturing data. Designed back-end to store captured data using Nest JS.

META MANUAL | React JS
- My role was to build the user interface of the admin panel of the meta manual and integrate the API using the Axios library.

6 MONTHS
EazyDiner Private Limited | Tech Internship | Front-End Developer
JANUARY 2023 – JULY 2023 | Gurugram, Haryana UP, India

EazyDiner | Next JS
https://www.eazydiner.com
- EazyDiner is a restaurant aggregator & table reservation.
- My role is to create custom components like accordion, dropdown, and carousel without using any libraries.
- I created a helper function that detected that we had reached the bottom of the page. We use this function in different components, so when we reach the bottom, we can change the state.

PROJECTS

ADS CLASSIFIED WEB APPLICATION | Bootstrap, PHP
https://github.com/waquarmahboob4/Classified-Ads-OLX-Clone
- Ads classified are used for advertising the products. So, people can view and post advertisements for products.

Certificates

- **JavaScript (Basic)** Hacker Rank Certificate

  02 JULY 2022

- **Problem Solving (Basic)** Hacker Rank Certificate

  12 JUNE 2022

- **Problem Solving (Intermediate)** Hacker Rank Cert.

  18 AUG 2022

- **Python and Deep Learning** Google Developer Group

  17 JULY 2022

TO-DO | React JS, Nest JS

https://github.com/waquarmahboob4/todo

- TO-DO is used to manage the tasks. So, people can remember their tasks and complete them on time.
